Literature support for modular electro-exocytosis

MAP KEY

RECORD ROLE

- Biology / process evidence
- Computational framework

BIOLOGY CONFIDENCE

- Established
- Supported
- Hypothesized
- Unassigned for model rows

CITATION SLOTS (1-5)

- Listed citation
- Empty slot
- Invalid placeholder
- No listed references

CURATION STATUS

- Complete
- Needs review
- In progress
- Not started

FRAMEWORK MODULES

- M1 Pulse delivery and dosimetry
- M2 Membrane and organelle electrodynamics
- M3 Ion transport, Ca^{2+}, ROS and ATP
- M4 Ca^{2+}-dependent remodeling and repair
- M5 EV biogenesis and release
- M6 Cargo, composition and potency
- M7 Injury, debris and quality gate
- M8 Manufacturing, isolation and QC
